

CONVERTIBLE STROLLER WAGON

ADVENTURE & COMFORT ANY WAY YOU ROLL!

Description: The Convertible Stroller Wagon combines the adventure of a wagon and the convenience of a stroller in one premium vehicle. It fully converts from a stroller to a wagon thanks to a unique design that allows the optimal steering configuration for each mode: a traditional wagon pull handle in the front and a fold-away stroller handlebar on the back. Keep little ones as young as 12 months safe and comfortable with two 5-point safety harnesses and rear brakes. Thoughtfully designed parent features like cup holders and adjustable height handles make this the ideal vehicle for your whole family. The side zips down for stationary bench seating. Large 12” rear wheels are easy to push and provide a smooth, easy ride on any surface, and the front caster wheels allow nimble steering and maneuverability. The roll-up UV protection canopy blocks the sun. It also features DuraClean® 2.0, our highest quality fabric, which is durable, easily cleaned and made to last. This vehicle delivers the best of both worlds and passes the safety standards for both a stroller and a wagon.

Features:
