

TINKER TRUCK™

DEVELOPS MOTOR SKILLS

Description: Radio Flyer's Tinker Truck™ is a new, interactive ride-on that encourages imaginative play and helps develop both fine and gross motor skills. It is also a push walker, which allows children to build confidence and balance as they learn to walk. With 18 interactive sensory activities, the Tinker Truck™ will provide endless learning and fun! Interactive activities include sliding clicking numbers, pop-up buttons, a clicking spare tire, folding side view mirrors, a spinning steering wheel and more. The spinning beads introduce letters and numbers. Storage underneath the seat allows your child's favorite toys to join every adventure.

Features: **18 Interactive Features**
Provide endless learning & fun
